Career Objective

Aspiring Software Engineer with experience in Java development and full-stack web development. Proven ability to design, develop, and deploy scalable applications. Passionate about solving real-world problems, optimizing performance, and contributing to impactful software projects.

Work Experience

Software Developer Intern | Ypsilon IT Solutions | Indore | May 2023 - Nov 2023

- Built and deployed 3 full-stack MERN applications, enhancing client onboarding speed by 25% and serving 100+ daily users.
- Optimized backend queries to reduce API response time by ~40%.
- Developed responsive UIs using React.js and integrated RESTful APIs for seamless functionality.
- Collaborated in Agile sprints with a 5-member developer team, completing 90% of assigned tasks ahead of deadlines.
- Leveraged Git for version control and code collaboration.

Java Developer Intern | Elevate Labs | Virtual | Aug 2025 – October 2025

- Designed and developed 2+ Java console-based applications that automated manual tasks, reducing processing time by 30%.
- Improved debugging and problem-solving efficiency by identifying and fixing 15+ recurring issues.
- Collaborated with a team of developers in an Agile environment to deliver features within deadlines.

Wordpress Developer Intern | GladiatorX | Remote | Sep 2025 - Dec 2025

- Designed and developed **4+ responsive Wordpress website** for clients, including: <https://talekarconstruction.com> , <https://shreewooddecor.com> , <https://myscienceacademy.in> , <https://yugacrop.com> .
- Collaborated with team members to design, develop, and deploy websites.
- Maintained and updated the company's website built with **HTML, CSS, JavaScript, and PHP**.
- Fixed bugs, improved responsiveness, and ensured smooth website performance. .

Education

Master of Computer Applications (MCA) | Acropolis Institute of Technology and Research, Indore | 2023 - 2025

Bachelor of Computer Applications (BCA) | Vikram University | 2020 - 2023

Certifications & Training

MERN Stack Training | Universal Informatics, Indore | May 2023 - Aug 2023

- Built 2+ real-world projects using MongoDB, Express.js, React.js, Node.js, HTML, and CSS.
- Strengthened expertise in front-end and back-end development.

Python | Kaggle (Virtual) | Jun 2022 - Present

- Completed 5+ Python projects including data analysis and automation.
- Applied Python in solving real-world challenges using Kaggle datasets.

Projects

CareerMitra | May 2023

- Designed a career guidance platform to recommend graduation courses based on 12th-grade subjects.
- Implemented recommendation logic in Node.js, used by 200+ students during testing.
- Built a responsive front-end with React.js and integrated MongoDB for data management.

Technical Skills

Languages: Java, Python, C++, JavaScript

Web Development: HTML, CSS, React.js, Node.js, Express.js, MongoDB

Tools & Platforms: Git, Agile, WordPress, RESTful APIs, Lovable AI

Achievements & Activities

- Secured 2nd place out of 80+ participants in a Coding Competition organized by MCA Department.
- Participated in National-level Hackathon (Prayatna) at Acropolis Institute, building a prototype within 36 hours.
- Regularly contribute to GitHub with projects showcasing problem-solving and development skills.
